RECYCLING

Perfect for use in hygiene critical environments: schools, hospitals, commercial kitchens.

Colour options full grey, full white, full red, full yellow or container bodies available in grey or white with lids in blue, yellow, red, green, white or grey.

The antimicrobial and antibacterial material specification is made from 70% recycled material. All sizes are available in black with a special lid sticker provided. The bin is effective against a broad spectrum of harmful bacteria, including E-Coli and MRSA, and offers a greater level of protection by inhibiting the growth of microbes on the surface of the bin.
