

Steelybin®

STEEL WHEELED CONTAINERS

Our 660 & 1100 litre Steelybin® is fully EN840 certified and manufactured to a high specification, offering excellent value for money and a wealth of features as standard.

Developed in consultation with key contractors, local authorities and waste management companies, the Steelybin® offers customers the ultimate solution for trade and recycling waste.

Three lid types; a trade waste lid, a bottle and cans recycling aperture lid and a paper recycling aperture lid, are also available offering customers complete flexibility.

Containers are supplied with multiple features including Danish handles for improved maneuverability, internal buffer plates, a lid lock to prevent unauthorised access, a sump base to aid stability and a raised lid to ensure rainwater run off.

The Steelybin® comes in a wide range of colours and can be fully customised with individual vinyl graphics.

Product	Capacity (litres)	Overall Dimensions (mm)
Steelybin	660	1260 (w) x 720 (d) x 1350 (h)
Steelybin	1100	1260 (w) x 1000 (d) x 1390 (h)
