IPL offers packaging solutions that meet FDA (Food and Drug Administration) standards, with several features specifically designed for food. All of our containers are available with a security system that protects against unwanted openings. Decoration by IML, is available on selected models to enhance shelf impact. Our quality containers will ensure a perfect seal, even after repeated openings and closings of the lid. With IPL, your food is in good hands!

- Photo quality graphics
- Complete surface coverage
- Not affected by water and scratch resistant
- Additional UV ray protection available
- Container 100% recyclable because the label is made of plastic
- DRY offset**
- Up to 4 colors on the lids
- Up to 7 colors on the containers
- 8 points printing size or more

Certifications

- Our facilities and rigorous quality control processes have earned us certification under the following standards:
- ISO 9001
- ISO 14001
- HACCP
- IMS
- SQF

Rigid Packaging Family

30 SERIES HDPE
2 US GAL (8 L) TO 4.5 US GAL (17 L)

30 SERIES PP
2 US GAL (8 L) AND 4 US GAL (15 L)

FOOD MANUFACTURING AND PROCESSING

Performance and peace of mind by the pailful.

Rigid Packaging Family

Heavy Duty Design

30 SERIES

Depending on your needs, from liquid to solid, from cold to hot, we have the right products

30 SERIES

Made of polypropylene and polyethylene, these containers offer improved resistance to stacking and unrivaled ruggedness. The optional liquid gasket ensure that your product remains intact by preventing leakage. A temper-evident tear-strip security system is also available on selected lids.

For every need

Liquids

Issues like heat deformation resistance, leak proofness, and liquid's high weight can require special containers.

Dry

Plastics breathe, and dry products need protection from moisture. So we get our vapor transmission rates tested independently in order to understand how products react.

Refrigerated

Restaurants constantly carry, open and close, label, and identify containers. Our Trustpack™, IML and see-through solutions can handle it.

Frozen

Cold robs plastic of its impact resistance and freezing makes products expand. But IPL has the solution to your needs.

Features

- Tear strip tamper evident security system
- Perfect for retail and industrial markets
- Easy to open and use
- IML and Dry offset decoration available
- Some pails available in polypropylene (PP)
- Available with metal or plastic handle

Technical advantage

Lid options available

- Snap-on
- Standard tear strip with optional liquid gasket
- Easy to open tear strip with optional liquid gasket
- Adapted to Fasteners & Chains

Handle options

- Metal or Plastic handle available

Optional footprint

- 20 units per layer on 40" x 48" skid
- All products are available in HDPE 2 US Gal & 4 US Gal also available in PP

(HDPE)
high-density Polyethylene Offers high impact performance even when frozen and resistance at high temperature

(PP)
PolyProPyLene Lightweight and offers superior properties in top load compression
