IPL offers packaging solutions that meet FDA (Food and Drug Administration) standards, with several features specifically designed for food. All of our containers are available with a security system that protects against unwanted openings. Decoration by IML, is available on selected models to enhance shelf impact. Our quality containers will ensure a perfect seal, even after repeated openings and closings of the lid. With IPL, your food is in good hands!

Certifications

- Our facilities and rigorous quality control processes have earned us certification under the following standards:
- ISO 9001
- ISO 14001
- HACCP
- IMS
- SQF

FOOD MANUFACTURING AND PROCESSING

Performance and peace of mind by the pailful.

Rigid Packaging Family

Round Tamper Evident

INPACK SERIES

Depending on your needs, from liquid to solid, from cold to hot, we have the right products

INPACK SERIES

InPack rectangular containers use space more efficiently. Its wide skirt with integrated grip design makes this container easy to manipulate. It offers wide opening and lid locking system which enables users to keep lid opened when dispensing products. The InPack lid is affixed to the container and comes with a tamper-evident tear strip which prevents contaminants from entering and affecting products. InPack is offered in white or in clear plastic, which will showcase your products.

For every need

Liquids

Issues like heat deformation resistance, leak proofness, and liquid's high weight can require special containers.

Dry

Plastics breathe, and dry products need protection from moisture. So we get our vapor transmission rates tested independently in order to understand how products react.

Refrigerated

Restaurants constantly carry, open and close, label, and identify containers. Our Trustpack™, IML and see-through solutions can handle it.

Frozen

Cold robs plastic of its impact resistance and freezing makes products expand. But IPL has the solution to your needs.

Features

- Tear strip tamper evident security system
- Wide opening with hinged lid
- Perfect for retail and industrial markets
- Easy to open and use
- Available with or without plastic handle
- Available in clear polypropylene
- Available with liquid gasket upon request

Technical advantages

Wide Opening

- Our rectangular hinged lids are convenient for dispensing of product with its wide

Easy to Manipulate Design

- Wide skirt with integrated grip for convenient handling

Affixed Lid

- The lid is attached to the container which prevents contaminants from entering

Locking System

- Our locking system that enables users to keep the lid

Polypropylene Highlights

- PP holds a tighter dimensional spec than HDPE
- Perfect for retail and industrial markets
- High impact resin available for freezing applications
- Thinner wall with competitive top load compared to HDPE
- Less polypropylene means it's less costly
