IPL offers packaging solutions that meet FDA (Food and Drug Administration) standards, with several features specifically designed for food. All of our containers are available with a security system that protects against unwanted openings. Decoration by IML, is available on selected models to enhance shelf impact. Our quality containers will ensure a perfect seal, even after repeated openings and closings of the lid. With IPL, your food is in good hands!

Photo quality graphics

Complete surface coverage

Not affected by water and scratch resistant

Additional UV ray protection available

Container 100% recyclable because the label is made of plastic

## Round Tamper Evident

TRUSTPACK+ SERIES

Depending on your needs, from liquid to solid, from cold to hot, we have the right products

### Features

- Tamper evident security system
- Perfect for retail and wholesale markets
- Easy to open and use
- IML decoration available
- Polypropylene pails and lids (PP)
- Available in clear polypropylene
- Microwave & dishwasher safe

### Technical advantages

#### Innovative TRUSTPACK Tamper Evident System

- Simply pull tab handle up to break it
- Easy single-motion opening

#### Transport and Storage

- Its square shape allows for optimized shipping and warehousing

#### Ergonomic Integrated Grip

- No interference when applying labels
- No interference when pail is upside down

#### Polypropylene Highlights

- Splash proof without gasket:
- PP holds a tighter dimensional spec than HDPE
- High impact resin available for freezing applications
- Thinner wall with competitive top load compared to HDPE
- Less polypropylene means it's less costly

### TRUSTPACK+ SERIES

TrustPack keeps your product safe, fresh and clean even after the first opening by the end user. The containers can be opened and closed several times without altering the seal. When open, the smooth lip design reduces contamination risk and keeps the container clean for the next usage. No spill perfect! The innovative TrustPack tamper-evident system offers a unique integrity indicator, located on all 4 corners of the lid, increasing consumers confidence in product safety.

#### For every need

##### Liquids

Issues like heat deformation resistance, leak proofness, and liquid's high weight can require special containers.

##### Dry

Plastics breathe, and dry products need protection from moisture. So we get our vapor transmission rates tested independently in order to understand how products react.

##### Refrigerated

Restaurants constantly carry, open and close, label, and identify containers. Our Trustpack™, IML and see-through solutions can handle it.

##### Frozen

Cold robs plastic of its impact resistance and freezing makes products expand. But IPL has the solution to your needs.
